The studio has been run in Thessaloniki since 1998. Since then we prepare successfully those who are interested to be admitted to the School of Fine Arts in Athens or Thessaloniki, the designing University of Architecture and the rest Higher Education Schools (graphic arts, designers etc. ) for the preparation of Portfolio for universities abroad, as well as any school or department which is based on design.

At first, it was found by Rena Moustakatou and Rania Siaplaoura. In 2003 a new establishment of the company was made, we were transferred to a new building in 3rd Ioustinianou street with perfectly equipped rooms of 300 m2. It was also enriched with new classes and our ambition is to have a constant success in these new steps, as well.

All the tutors are graduates of the School of Fine Arts and Architecture.
